### **3.1 Public Comments/Requests:**

**Discussion:**

- Marissa Nichols – Spoke about her son having issues with another student. He was suspended twice for defending himself. She is concerned about how one student can keep skating through when he causes so many problems for so many students. She also expressed concern about that student's parent being the basketball coach.
- Bianca Malli – Said her son was panted at Science Camp. Concerned about lack of disciplinary action. Not enough staff support when it comes to discipline. Is defending herself against accusations. Appreciates 3<sup>rd</sup>-party investigation.
- Adrian Garrett – Concerned about behaviors at Science Camp. Mixed feelings regarding discipline. Appreciative of how hard the work is. Thinks the 3<sup>rd</sup>-party investigator is a good idea.
- Will Hogan – His son was also panted at Science Camp. He is present to satisfy that necessary steps are taken.

- Chris Garrett – Concerned about students whose parents might not be as involved as the ones that are present. He said that he is worried that there are lots of kids being bullied, but are maybe being skipped over. He said that he sees that discipline has been stepped up, and understands that it's a lot of ground to cover. He feels that changes have been made.
- Ryan Malli – Wondering about how documented procedures are followed. Noted that he heard that the sheriff was here recently, related to a threat of violence involving the same family.
- Courtney Clendenin – (Present on Google Meet) Present in support of incumbent Board Members.
- Jonathan Russell – wanted to discuss rules of Board Meetings. Noted that these comments are the beginning of the conversation, not the end. Notes on the situation: appreciates the feedback. Understands that it is highly concerning to all parties. Disability of discussion in a Board Meeting can be unsatisfactory. Accountability is important, and we strive to meet expectations. Confidentiality is critical. Appreciative of the strength and diversity of open discussions. Let's keep this conversation going.

at the Jog-A-Thon. Really appreciative of PTO and parents for making events happen. Mr. Paturel also thanked parents for making the Book Fair a success. Their purchases help raise money for the library.

Superintendent Paturel reported on the P-3 Math Initiative with Cal Ed Partners. Our Pre School through 3rd grade teacher team attended their first meeting. They are joining the five year program at year two, but they are catching up. They will meet monthly with the program facilitator. Similar program with the high school for 8th - 9th grade. 4th and 5th grades will be looped in with information from the P-3 grade levels. Exciting times for math instruction.

In addition Mr. Paturel reported on EDCOE doing a "Standards Deep-Dive." Broken into grade levels, doing training on math standards in preparation for textbook adoption. This is a three year initiative.

Mr. Paturel commented on how quickly it seems that we've gone from August 8 to October 10. Intervention with Mrs. Bolster is up and running. All Systems GO. Last day of trimester is October 25.

## **5.5 LCAP Report:**

### **Discussion:**

Superintendent Paturel explained the Local Control Accountability Plan. It's a plan for how we spend the money from the state - LCFF funds. We look for input from Site Council, Board, Parents and Staff. We write goals and make plans for how to reach them. Parent and teacher input is valuable. Parents can use our online survey as a way to give feedback.

## **5.6 Budget Report:**

### **Discussion:**

CBO Howard reported on the cookie dough fundraiser that is running now. Timing to bolster student body funds for field trips at the beginning of the year, and get the kids involved. Students earn prizes which have been fun to distribute.

The first Budget Committee meeting was good. Explanation of the budget presentation. Talked about how school funding works. The first meeting was attended by one Board Member, one Classified Employee, CBO Paturel and herself. There will be Three more meetings. She welcomes community and staff members. She asked that participants commit to attending the meetings.

CBO Howard that the County Office of Education is currently reviewing our Unaudited Actuals. They have asked to make a few small corrections.

## **5.7 Maintenance and Operations Report:**

### **Discussion:**

CBO Howard reported that water leaks and septic issues continue. Three years running. We are lucky for the competence of our engineer, Chris. Tree roots, and shallow lines being crushed are causing leaks. Significant impact to budget. So many challenges - paying close attention to budget. Chris is a goldmine with lots of skills to work on projects. Brought on an extra sub to help with cleaning, and allow other projects to get done.

---

CBO Howard also reported that she met with RCAC. They were able to walk the wells and septic areas. They will create and end manual. The written plans don't match what's out there because of many repairs over the years. They will bring an engineer out for investigation and evaluation to create plans. Will come and present the project at a Board Meeting. Funding is a maybe because Somerset is just a bit above the median income. We will submit our CALPADS report that will provide a more accurate look at our school community.

CBO Howard also reported that she recently attended a conference and listened to the facilities presentations. There is talk of pooling districts for bond funds. She met with the Executive Director of the SSDA. He is interested in helping us connect with Kevin Gordon of Capital Advisors and other lobbyists, regarding Walt Tyler. Mrs. Howard also reported that she wrote letters to our Senator and Vice President about Walt Tyler.
